- **Tools & QA:** Git, GitHub, Figma, Software Testing, QA Methodologies

EDUCATION

- **American International University-Bangladesh** **September 2019 - January 2023**
Bachelor of Science in Computer Science & Engineering CGPA 3.74

PUBLICATIONS

- [A deep learning and machine learning approach to predict neonatal death](#)
- [Ongoing] Parkinson's disease detection using AI/ML

TRAINING

- **AI for Product Managers, HelloPM** **January 2026**

EXPERIENCE

Tech to the Future

August 2026 - Present

Founder & CEO

- Founded and manage an independent technology publication covering Linux, open-source software, academic research, and practical computing.
- Lead content strategy, website development, and editorial planning to publish accessible, research-backed technology content.

Roxnor (Parent Company of XpeedStudio & Wpmet with 1M+ Users)

January 2024 - October 2025

Product Marketing Executive

- **Software Product Strategy & R&D:** Guided product strategy and feature development for software (including [GetGenie AI](#) & [ElementsKit](#)) serving a **1 million+ user base** by conducting in-depth market, competitor, and SWOT analysis to identify key growth opportunities.
- **Decision Making:** Leveraged SEO and market data to develop and execute content strategies as the Product Lead of EmailKit for a global audience.

- **Cross-Functional Product Improvement:** Collaborated with software engineers and the UI/UX team to improve product experience by identifying and resolving user bugs.
- **Video Content for Software Products:** Worked on several [video projects](#) to promote and raise awareness for software products.

Digiflakes

January 2023 - December 2023

Product Manager

- **Software Product Launch Management:** Performed comprehensive Competitive Analysis, Keyword Research, and implemented SEO strategies to create and edit content, as the Product Lead, for Crew HRM, an Employee Management Plugin's website and social media, which was successfully launched.
- **Software Testing:** Performed software testing and identified user issues and bugs.
- **Utilizing Design Tools:** Used Figma for editing designs.

The Future Institute

September 2022 - December 2022

Intern

- Maintained graphics designs, and website's frontend updates, improving performance and accessibility of research content in coordination with leadership.

Bangladesh Generation Parliament by UNICEF & BDF

January 2019 - December 2020

Community Manager

- Mentored and coordinated youth across Bangladesh in a national policymaking program.

PROJECTS

- [Predictive Donor Targeting Model | Python \(Data Science & AI/ML\)](#): A machine learning project that analyzes historical donor data to predict future donation likelihood.
- [E-HealthCare | React & Laravel](#): A full-stack web platform for handling hospital operations.

EXTRACURRICULAR ACTIVITIES

- **AIUB Computer Club** - General Member (R&D and Design) **August 2020 - December 2022**
- **IEEE AIUB Student Branch** - Volunteer **February 2020 - June 2021**
- **AIESEC** - Team Member **August 2020 - January 2021**

AWARDS & ACHIEVEMENTS

- **Rising Star Employee of the Year**, Roxnor **January 2025**
- **Gold Awardee**, The Duke of Edinburgh's International Award, United Kingdom **July 2021**
- **Participant**, IEEEEXTREME Programming Competition **October 2020**
